- Location: Hamilton, ON

AWARDS

- Dean's Honour Roll for achieving over 4 GPA for Web Development course in Fanshawe College
- Badminton Regional Championship Winner 2014
- Badminton Regional Championship Runner up 2013
- Certified Trekker for trekking on several peaks of the Himalayas such as Deo-Tibba, Roopkund and Gangotri.

WORK SUMMARY

BACKEND SOFTWARE ENGINEER (REMOTE)

Creative Market (Dribbble Inc.), Hamilton, ON | Sept, 2022 - June, 2024

- Developed and maintained backend services and RESTful APIs using PHP and Laravel, improving system performance and scalability.
- Engineered the integration of over 250 million digital assets into the marketplace from platforms like Shutterstock and Fontspring, significantly enhancing the platform's offerings.
- Implemented new features and enhancements, including search experience improvements and new landing pages, leading to a 20% increase in user engagement.
- Led code reviews and regular dependency upgrades, ensuring code quality and adherence to best practices.
- Linear, Notion, AWS, EC2, S3, RDS, SQS, SNS, DynamoDB, MySQL, Kubernetes, Docker, Vuejs, TypeScript, React, Laravel, Codelgniter, Elastic Search, Pointguard, Node.js, e-commerce, marketplace management.

DEVOPS/SOFTWARE ENGINEER (REMOTE)

Timeless Medical Systems Inc. , Charlottetown, PEI | Dec, 2019 - Sept, 2022

- Designed, developed, and maintained PHP and Laravel-based web applications in the healthcare sector, focusing on pediatric healthcare solutions.
- Automated the CI/CD process for client on-premise infrastructure using Bash, PowerShell, Docker, Kubernetes, and Jenkins, improving deployment efficiency.
- Managed and optimized AWS Elastic Beanstalk/EC2, Nginx, and Apache servers, ensuring high availability and performance.
- Authored and maintained comprehensive technical documentation using JIRA and Confluence, improving team knowledge sharing and onboarding processes.
- Collaborated with cross-functional teams using Agile methodologies, contributing to the successful delivery of multiple project updates.
- JIRA, Confluence, Laravel, PHP, Symphony, Python, Bash, AWS, EC2, S3, RDS, Node.js, React, Apache, Nginx, Cloud Infrastructure and on-premise server management.

SUPPORT ENGINEER

DependableIT, Hamilton, ON | July, 2018 - Oct, 2019

- Provided technical support and troubleshooting for various clients, including Cogeco, Facedrive, and Windstream, resolving over 95% of issues on the first contact.
- Diagnosed and solved hardware and software faults, minimizing downtime and maintaining high levels of client satisfaction.
- Led backend operations and PTC licensing processes for Toronto drivers, managing AWS
 infrastructure and ensuring compliance with city regulations.
- Developed and maintained procedural documentation and relevant reports, improving team
 efficiency and client transparency.
- AWS, S3, EC2, Powershell, Bash, Confluence, Chatbot, Python, Selenium, Intercom, zendesk, freshdesk

ACADEMIC BACKGROUND

BACHELOR OF COMPUTER SCIENCE

Algoma University | 2024-2025 (Part-time)

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures
and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance
Data Structures and Algorithms, Information Retrieval, Image Processing, Unix and Systems
Programming, Interaction Design and Testing.

ONTARIO COLLEGE DIPLOMA IN INTERNET APPLICATIONS AND WEB DEVELOPMENT FUNDAMENTALS.

Fanshawe College | 2016-2018

- Graduated with a GPA of 3.8.
- Dean's Honour Roll for achieving over 4.0 GPA in one semester.
- Relevant Coursework: Object Oriented Programming, Databases, Graphic Design for Web
 Developers, Data Structures and Algorithms, Front End Web Development, Computer Networks,
 CMS Web Development, Mobile App Development, Cloud Computing and Servers.

COMPUTER SCIENCE CERTIFICATE

Willingdon College | 2013-2015

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms,
 Computer Networking, Algebra, Applied Science, Basics of C and C++ programming.
